

Heatmap visualization showing the relationship between Game 1 Lead Pair (Y-axis) and Game 2 Lead Pair (X-axis). The X-axis ranges from 1 to 15, and the Y-axis ranges from 1 to 15. The diagonal elements (where Game 1 Lead Pair equals Game 2 Lead Pair) are highlighted in dark red, indicating a strong correlation. The off-diagonal elements are yellow, indicating a weaker correlation. A legend in the top-left corner specifies: $H = 0.52$ bits (dark red) and Diag = 91% (yellow).

Heatmap of the 15x15 correlation matrix for Game 2 Lead Pair. The diagonal is dark red, indicating a correlation of 1.0. The matrix is symmetric. A text box in the top left corner states "H = 1.02 bits" and "Diag = 77%".
